

Comfy - Floate™ ALM831

Alternating Pressure Relief

UPHOLSTERY COLOR: NAVY BLUE

Mattress Base: Gray

Our ALM831 is designed to deliver pressure reduction. This product offers “at risk” patients the most comfortable support surface in its class and at the same time controls pressure, moisture, shear and friction for prevention and treatment of stage I-IV pressure sore ulcer. Key features include 16 alternating 3 zone air cells, of 10 cells have lasered low air loss holes. Individual cells have an inner cell that inflates at all times to prevent mattress from going flat in case of pump failure.

Comfy - Floate™ ALM831

Alternating Pressure Relief

UPHOLSTERY COLOR: NAVY BLUE

Mattress Base: Gray

STANDARD FEATURES

- * CPC connectors
- * CPR quick release Valves
- * Zipper top cover for easy removal
- * Vapor permeable top cover which is machine washable
- * Vinyl covering on air tube
- * Dual zone air cell keeps the mattress inflated during power failure
- * Controller can operate in static or alternating mode
- * Power failure alarm with firmness adjustment
- * Weight limit: 350 lbs

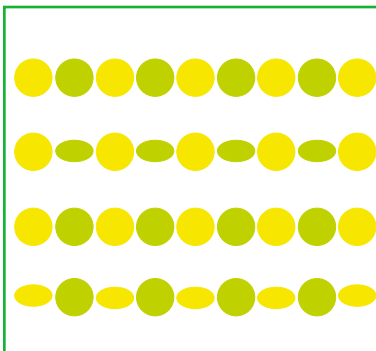

OPTIONAL ACCESSORIES

* Carrying bag

* Fast filling air pump

SPECIFICATIONS

PUMP SPECIFICATIONS:		MATTRESS SPECIFICATION:	
Power:	110V/ 60Hz., 230V/ 50Hz.	Cell Depth:	8" Inflated
Pressure Range:	30 - 60 mmHg.	Air Cell:	16 Air Cells w/ 3 Static Cells, 13
Air Volume Output:	6.5 liters to 9.5 liters	Alternating Cells and 10 w/ Lasered Low Air Loss Holes	
Cycle Time:	10 mins. (50Hz & 60Hz)	Top Cover:	Removable & Washable
Power Cord:	Hospital Grade Cord & Plug	Transport Air Lock Value:	Yes
Power Cord Length	12 feet	Air Tube Covering:	Yes
Firmness Adjustment:	Yes	CPR Deflation:	Yes
CPC Connectors:	Yes	Three Zone Air	Yes
Dimension:	12 1/2" x 9" x 4 1/2"	Inflated Dimension:	8" x 35" x 80"
Weight:	7 lbs.	Weight:	18 lbs.
Agency Approval:	UL, CSA		

Inflation and deflation of air cells in alternating cycles provide pressure relief for patient's sensitive tissues.

Total of 16 alternating 8" air cells, of which 10 cells with lasered low air loss holes to provide constant dry air to patient's skin.

High capacity 9 liter air pump is the quietest on the market. Features an adjustable pressure control to accommodate the patient's weight.
